Registro Imprese Novara
01027000031

Reg. 1907/2006/CE provides that the chemical substances will be recorded between 2010 and half 2018 according to the annual tonnage to consider, with the preventive pre-recording, whose term is expired the 01/12/2008.

Since this procedure can be executed from the single producers and importers, our Society for the products of its own manufacture or for directed imports from extra-UE countries, except for alimentary additives exempted from the obligation of recording, has already make the pre- registration, waiting for the aforesaid terms for the necessary recording.

For the products we acquire from suppliers extra UE, we are in contact with them because they make the registration, not to create problems at the enological market.
