

1. Identification

GHS Product identifier Trade name: Combistab AF Recommended use of the chemical and restrictions on use Recommended use: FOR PROFESSIONAL USE; FOR ENOLOGICAL USE Uses advised against: no data available Supplier's details Company: ESSECO S.r.l. Via San Cassiano 99 28069 - Trecate (NO) Italy Enartis - Phone n. +39-0321-790300 Competent person responsible for the safety data sheet: vino@enartis.it Importer's details Australia - ENARTIS PACIFIC PTY 69 Chadstone Rd, Malvern East, Victoria, 3145 Australia -Ph. +61 (03) 9428 0037 New Zealand - ENARTIS PACIFIC PTY 39 Edmundson Street - Onekawa Napier - New Zealand Ph. +64 (06) 8434 413 **Emergency phone number** Australia: Ph. +61 (03) 9428 0037 New Zealand: Ph. +64 (06) 8434 413 Enartis - Phone n. +39-0321-790300 Australia Wide 24/7 Poison Information centre: 131126 New Zealand Emergencies National Poisons Centre: 0800 764 766 Other Emergencies: Dial 111 then ask for fire, ambulance or police as required

2. Hazard identification

Classification of the Hazardous chemical

0 The product is not classified as dangerous according to Australia WHS 2012.

Adverse physicochemical, human health and environmental effects:

No other hazards

GHS label elements, including precautionary statements

The product is not classified as dangerous according to Australia WHS 2012.

Other hazards which do not result in a classification

Other Hazards: No other hazards

3. Composition/information on ingredients

Substances

no data available

Mixtures

Mixture identification: Combistab AF

Hazardous components within the meaning of the "Australian Work Health and Safety (WHS)" regulation and related classification:

CODE SHEET CMBST2(0621)2 Page n. 1 of 7

4.First-aid measures

Description of necessary first-aid measures

In case of skin contact:

Wash with plenty of water and soap.

In case of persistent skin irritation consult a doctor.

In case of eyes contact:

Wash immediately with water.

Wash immediately with water.

In case of Ingestion:

Induce vomiting. SEEK A MEDICAL EXAMINATION IMMEDIATELY and present the safety-data sheet.

In case of Inhalation:

Remove casualty to fresh air and keep warm and at rest.

Symptoms causedby exposure

no data available

Medical attention and special treatment

no data available

5. Fire-fighting measures

Suitable extinguishing media

Water.; Carbon dioxide (CO2).

Extinguishing media which must not be used for safety reasons:

None in particular.

Specific hazards arising from the chemical

Do not inhale explosion and combustion gases. Hazardous combustion products: no data available Explosive properties: no data available Oxidizing properties: no data available

Special protective equipment and precautions for fire-fighters

Use suitable breathing apparatus .

Wear suitable protective clothing (helmet, protective clothings, goggles, fire resistant gloves, boots) and protect respiratory organs (self contained breathing apparatus).

Move undamaged containers from immediate hazard area if it can be done safely.

Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

HazChem Code/Emergency Action code

N.A.

Fire residues and contaminated firefighting water must be disposed of in accordance within the local regulations.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment.

Remove persons to safety.

See protective measures under point 7 and 8.

Environmental precautions

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

Retain contaminated washing water and dispose it.

If the product has escaped into a water course, into the drainage system, or has contaminated the ground or vegetation, notify the competent authorities.

Methods and materials for containment and cleaning up

Wash with plenty of water.

Suitable material for taking up: absorbing material, organic, sand

7. Handling and storage

Precautions for safe handling

Do not eat or drink while working.

See also section 8 for recommended protective equipment.

Conditions for safe storage, including any incompatibilities

Keep away from food, drink.

Incompatible materials:

None in particular.

Instructions as regards storage premises:

Adequately ventilated premises.

8. Exposure controls/personal protection

Control parameters – exposure standards, biological monitoring

Community Occupational Exposure Limits (OEL)

Component	OEL Type	Country	Ceilin Long g Term mg/m3	Long Term ppm	Short Term mg/m3	Short Term ppm	Behaviour Notes
AMORPHOUS SILICA	WES	NNN	10.000				
Derived No Effect Level (DNEL) values							
Component	CAS-No.	Worker Industry	Worker Profession	Consu		xposure	Exposure Frequency Remark

Component	CAS-No.	Worker Industry	Worker Professional	Consumer	Exposure Route	Exposure Frequency Remark
AMORPHOUS SILICA	112926-00- 8		4 mg/m3			Long Term, local effects

Appropriate engineering controls

no data available

Individual protection measures, such as personal protective equipment (PPE)

Please see both sections 5 and 6 for information about personal protective equipment to be worn in an emergency (e.g.: fire or unintentional release of the substance).

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

The final choice of protective equipment will depend upon a risk assessment.

Personal protective equipment selections vary based on potential exposure conditions and working conditions.

Eye protection:

Not needed for normal use. Anyway, operate according good working practices.

Protection for skin:

No special precaution must be adopted for normal use.

Protection for hands:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Glove suitability and breakthrough time will differ depending on the specific use conditions.

Contact the glove manufacturer for specific advice on glove selection and breakthrough times for your use conditions.

Not needed for normal use.

Respiratory protection:

Depending on the potential for exposure, select respiratory protective equipment suitable for the specific conditions of use and in compliance with current legislation.

Thermal Hazards:

no data available

9. Physical and chemical properties

Physical State Solid Appearance Solid Odour: Characteristic Odour threshold: no data available

pH: no data available Melting point / freezing point: no data available Initial boiling point and boiling range: no data available Flash point: no data available Evaporation rate: no data available Flammability (Solid, Gas) no data available Upper/lower flammability or explosive limits: no data available Vapour pressure: no data available Vapour density: no data available Relative density: no data available Solubility in water: no data available Solubility in oil: no data available Partition coefficient (n-octanol/water): no data available Auto-ignition temperature: no data available Decomposition temperature: no data available Viscosity: no data available Specific heat value: no data available Saturated vapour concentration: no data available Release of invisible flammable vapours and gases: no data available Particle size: no data available Size distribution: no data available Shape and aspect ratio: no data available Crystallinity: no data available Dustiness: no data available Surface area: no data available Degree of aggregation or agglomeration, and dispersibility: no data available Biodurability or biopersistence: no data available Surface coating or chemistry: no data available

10. Stability and reactivity

Reactivity

Stable under normal conditions

Chemical stability

no data available

Possibility of hazardous reactions

None.

Conditions to avoid

Stable under normal conditions.

Incompatible materials

None in particular.

Hazardous decomposition products

None

11. Toxicological information Information on toxicological effects

Toxicological Information of the Preparation

a) acute toxicity	Not classified
	Based on available data, the classification criteria are not met
b) skin corrosion/irritation	Not classified
	Based on available data, the classification criteria are not met
c) serious eye damage/irritation	Not classified
	Based on available data, the classification criteria are not met
d) respiratory or skin sensitisation	Not classified
	Based on available data, the classification criteria are not met
e) germ cell mutagenicity	Not classified

	Based on available data, the classification criteria are not met			
f) carcinogenicity	Not classified			
	Based on available data, the classification criteria are not met			
g) reproductive toxicity	Not classified			
	Based on available data, the classification criteria are not met			
h) STOT-single exposure	Not classified			
	Based on available data, the classification criteria are not met			
i) STOT-repeated exposure	Not classified			
	Based on available data, the classification criteria are not met			
j) aspiration hazard	Not classified			
	Based on available data, the classification criteria are not met			
cological information on main components of the mixtures				

Toxicological information on main components of the mixture:

AMORPHOUS SILICA	a) acute toxicity	LD50 Oral Rat > 3100 mg/kg
		LD50 Skin Rat > 5000 mg/kg

12. Ecological information

Ecotoxicity

Adopt good working practices, so that the product is not released into the environment. Eco-Toxicological Information:

List of Eco-Toxicological properties of the product

Not classified for environmental hazards.

No data available for the product

Persistence and degradability

no data available

Bioaccumulative potential

no data available

Mobility in soil

no data available

Other adverse effects

no data available

13. Disposal considerations

Disposal methods

Recover if possible. In so doing, comply with the local and national regulations currently in force.

14. Transport information

Not classified as dangerous in the meaning of transport regulations.

no data available UN proper shipping name no data available

UN number

Transport hazard class(es) no data available Packing group, if applicable

no data available

Environmental hazards no data available

Special precautions for user

CODE SHEET CMBST2(0621)2 Page n. 5 of 7 ADG-Subsidiary risks: no data available ADG-S.P.: no data available Road and Rail (ADR-RID) : no data available Air (IATA) : no data available Sea (IMDG) : no data available Additional Information no data available HazChem Code/Emergency Action code

no data available

15. Regulatory information

Safety, health and environmental regulations specific for the product in question

This Safety Data Sheet has been prepared according to the Australian Work Health and Safety (WHS) act and the Code of Practice on preparation of safety data sheets for Hazardous Chemicals.

List of substances included in the NICNAS:

AMORPHOUS SILICA

List of substances included in the AICS inventory:

AMORPHOUS SILICA

Poison Schedule (SUSMP):

None Specified

16. Other information

This document was prepared by a competent person who has received appropriate training.

Main bibliographic sources:

ECDIN - Environmental Chemicals Data and Information Network - Joint Research Centre, Commission of the European Communities

SAX's DANGEROUS PROPERTIES OF INDUSTRIAL MATERIALS - Eight Edition - Van Nostrand Reinold

The information contained herein is based on our state of knowledge at the above-specified date. It refers solely to the product indicated and constitutes no guarantee of particular quality.

It is the duty of the user to ensure that this information is appropriate and complete with respect to the specific use intended.

This MSDS cancels and replaces any preceding release.

Legend to abbreviations and acronyms used in the safety data sheet:

ACGIH: American Conference of Governmental Industrial Hygienists

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.

AND: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways

ATE: Acute Toxicity Estimate

ATEmix: Acute toxicity Estimate (Mixtures)

BCF: Biological Concentration Factor

BEI: Biological Exposure Index

BOD: Biochemical Oxygen Demand

CAS: Chemical Abstracts Service (division of the American Chemical Society).

CAV: Poison Center

CE: European Community

CLP: Classification, Labeling, Packaging.

CMR: Carcinogenic, Mutagenic and Reprotoxic

COD: Chemical Oxygen Demand

COV: Volatile Organic Compound

CSA: Chemical Safety Assessment

CSR: Chemical Safety Report

DMEL: Derived Minimal Effect Level

DNEL: Derived No Effect Level.

DPD: Dangerous Preparations Directive

DSD: Dangerous Substances Directive EC50: Half Maximal Effective Concentration ECHA: European Chemicals Agency EINECS: European Inventory of Existing Commercial Chemical Substances. ES: Exposure Scenario GefStoffVO: Ordinance on Hazardous Substances, Germany. GHS: Globally Harmonized System of Classification and Labeling of Chemicals. IARC: International Agency for Research on Cancer IATA: International Air Transport Association. IATA-DGR: Dangerous Goods Regulation by the "International Air Transport Association" (IATA).
