**ENOPLASTICO**

Sheet Code: Enoplastico/en

Revision: n° 1 May 1996

Pag. 1/1

**CASK PUTTY**

COMPOSITION

Paraffin, calcium carbonate, wax

GENERAL FEATURES

Appearance: semisolid, creamy white odorless paste

ENOPLASTICO SPECIAL is a stiff paste, odorless and impermeable, containing ultra pure oily substances and adhesive powders.

The product can be stored at length since it does not become rancid or develop mould.

ENOPLASTICO SPECIAL adheres perfectly to wood, sealing gaps, cracks and fissures between staves.

APPLICATIONS

The product's pasty texture makes it particularly suited to sealing vat doors, ensuring a perfect seal.

Compared to other types of putty, ENOPLASTICO SPECIAL is thicker and more heat-resistant, making it well suited for sealing casks and vat doors containing fermenting must.

PACKAGING AND STORAGE

0.5 kg cake

Keep the product in a fresh, dry, well-ventilated area.
