

ENARTIS GREEN GOMMA VEREK

ORGANIC GUM ARABIC PRODUCED IN ACCORDANCE WITH REG. (EC) N. 834/2007 AND N. 889/2008

COMPOSITION

E 414 gum Arabic, organic certified.

GENERAL FEATURES

Appearance: white granules.

Made from *Acacia verek*, **Enartis Green Gomma Verek** is produced using a simple solubilization and purification process designed to maintain the gum's original dimensions and structure, followed by spray-drying and granulation.

As a result, **Enartis Green Gomma Verek** is highly effective in preventing pigment complex precipitation.

APPLICATIONS

Red and Rosé wines

- Helps prevent pigment complex precipitation in wines ready for bottling.

DOSAGES

10 - 50 g/hL

It is recommended to conduct preliminary laboratory trials to determine the right dosage, stabilizing efficacy and effect on filterability.

INSTRUCTIONS FOR USE

Dissolve one part of **Enartis Green Gomma Verek** in 10 parts of clear wine, already filtered and ready for bottling. Once dissolved, add homogeneously to the wine to be treated.

Add Maxigum to clarified, filtered and clear wines ready for bottling. The resulting solution cannot be stored and must be used in the same day.

WARNING: adding **Enartis Green Gomma Verek** before microfiltration can cause filter clogging. When it's used at the highest dosages, it's recommended to add it after the microfiltration through an inline dosing unit. If an inline dosing system for post-filtration additions is not available, it is recommended to conduct preliminary laboratory trials to determine the effect on filterability.

PACKAGING AND STORAGE

1 kg bag

Sealed package: store in a cool, dry, well-ventilated area.

Opened package: carefully reseal and store it as indicated above.

The product is in compliance with the following specifications:

Codex Œnologique International

Reg. (EC) N. 834/2007

Product approved for winemaking, in accordance with:

Regulation (EC) N. 606/2009
