### OGM AND ORGANIC PRODUCTS DECLARATION

Enartis, Esseco S.r.l. division, grants that the oenological products sold and/or produced in its works are in conformity with Regulation 1829/2003 and 1830/2003.

Enartis oenological products are not genetically modified and do not arise from raw materials or organism that are genetically modified.

There isn't any risk of cross-contamination with product genetically modified.

Note that:

- Organic products obtained by fermentation, such as acids, vitamins and other products, are not produced directly or indirectly using genetic modification techniques.
- Enzymes arise from fermentation using micro – organism not genetically modified
- Selected yeasts and malo-lactic bacteria are not genetically modified.

Enartis, a Business Unit of Esseco Srl, assures that in the production of its winemaking products intended for organic wines, as well as no GMO products were used and that such winemaking products were not irradiated and obtained with the utilization of muds derived from water treatment plants.
