

“Enartis has moved shop! With sleek, modern facilities, a fresh new look and a range of exciting new products, Enartis is cementing its status as the go-to oenology expert.

BY ANTON PRETORIUS

ENARTIS SOUTH AFRICA OENOLOGY INNOVATOR

Enartis is an innovative oenology specialist supporting more than 10 000 cellars in 50 countries. In line with the company's reputation of being at the cutting-edge of product development, the Enartis team in South Africa is motivated to provide wine producers with innovative solutions and peace of mind.

NEW PREMISES

Under the leadership of Enartis general manager Lida Malandra, the company recently moved to its new premises at 25 Zandwyk Park on Old Paarl Road, Southern Paarl. The building is new, the facilities are modern and the area is fast becoming a business hub for various companies serving the wine-production industry.

“We're very happy the opportunity to move to our new premises came

up now,” Lida says. “We were bursting at the seams at our previous location. Everybody is excited to be here.” There's also additional laboratory space at the new premises which means Enartis can expand its free sample testing service. “It's great for us and we've already seen an increase in winemakers sending us samples for testing,” Lida says. “Our lab technician, Pati-Joh Abrahams, has been working tirelessly testing new samples.”

NEW LOOK

Enartis timed its move to perfection as it coincided with a brand facelift its parent company in Italy recently underwent. The rebranding includes the introduction of vibrant colours and a fresh new logo design. “It's been long overdue,” Lida says. “The new branding is in line with our logo of inspiring innovation and this is reflected in our branding as well.”

The Enartis team: Lida Malandra, Vuyiswa Botha, Roger Ndoiyisile, Pati-Joh Abrahams, Helana van Wyk, Jaco Cockrell, Phindi Ndoiyisile, Ligwa Mphangeli, Banda Magutywa, Antoinette van Zyl, Max Shiyani and Gemma Grobbelaar.

There's additional laboratory space at Enartis' new premises.

The Enartis team caters for every aspect of the winemaking process, from tank to bottle. Whether it's microbe management, stuck or sluggish fermentation, wine colour, wine analysis, low SO₂ winemaking, wine stability, yeast nutrition or simply dealing with difficult grapes, the experts at Enartis have you covered.

NEW PRODUCTS

Wineries, regardless of their size, that currently use cold systems for the stabilisation of their wines, and want to reduce production costs and increase their sustainability standards, need look no further than Enartis' new range of Zenith products.

Zenith Uno and Color are the latest innovations from the Enartis stable. The former is used for white wine and the latter for red wine. A solution of A-5D K/SD potassium polyaspartate (KPA) and sulphur dioxide, Zenith Uno is an effective and easy-to-use product for rapid potassium bitartrate stabilisation in wine. It ensures long-lasting stability in wine with high-level tartaric instability.

Zenith Uno and Color are cutting-edge, cost-effective and eco-friendly products that allow you to switch off your cold system and dramatically reduce

production costs and gas emissions while maintaining the organoleptic aspects of your wine.

Zenith Uno can easily replace cold stabilisation and other physical treatments. Neither Zenith Uno nor Color impacts the wine's sensory quality and filterability. Because the products come in liquid form, they're quick and easy to use. “The Zenith range of products is unique to Enartis,” Lida says. “They're also the most effective stabilisation products currently on the market.”

Enartis has built strong relationships with several leading winemakers across the Western Cape, not only because of its range of innovative products and services, but also because of the energy and attitude that the team exudes. Winemakers and wine producers are welcome to visit them at their new premises, Lida says. “We look forward to showing them around. Pop in for an espresso at our new premises at 25 Zandwyk Park, Paarl. Being an Italian company, we also have really good coffee!” **W**
