OGM AND ORGANIC PRODUCTS DECLARATION

Enartis, Esseco S.r.l. division, declares that:

- The enological products marketed and/or produced in its plants are in compliance with Regulation 1829/2003 and 1830/2003.
- Enartis enological products are not genetically modified and do not come from genetically modified raw materials or organisms.
- There is no risk of cross-contamination with genetically modified products.
- Biological products obtained by fermentation, such as acids, vitamins and others, are not manufactured, directly or indirectly, with the help of genetic modification techniques.
- Enzymes come from fermentation by non-genetically modified microorganism.
- Selected yeasts and malolactic bacteria are not genetically modified.
- None of the enological products intended for organic wine production contain genetically modified ingredients, have been manufactured, directly or indirectly, with the help of genetic modification techniques, have been exposed to radiation nor obtained with the use of sludge from water treatment plants.
